HONOLULU, TERRITORY OF HAWAII, THURSDAY, NOVEMBER 8, 1900.

PRICE 5 CENTS.

GRAVEL WILL FLY MONDAY AT PUNAHOU

Work of Construction of Rapid Transit Line Then Begins.

FIRST DIVISION RUNS THROUGH BUSINESS PART

The Cars May be Running by the First of March—Modern Implements for Work of Construction.

Rapid transit is coming right along. Construction of the tracks will begin at Punahou next Monday morning.

The traction of the power house at Berentania, Alapai and Young streets is advancing rapidly. Many of the trolley wire poles have been planted, and the rails distributed along the route of the first division to be constructed.

Not a very large gang will be set to work at the start on the permanent way. Men will be broken into the handling of the improved implements that are to be employed. The company has imported road plows, rollers and scrapers.

The first division will be from Punahou by way of Wilder avenue, Iwaleale and Alapai streets into the business quarter, thence out to the head of Liliha street. Manager C. G. Ballentyne hopes to have cars running on this division by the end of February. There may be circumstances such as cannot be controlled by his managerial power to delay the opening of the line a little beyond that period, but the public may feel assured that the long wait for the event will look very near its end when President McKinley begins his second term on the fourth of March.

FIRE HAS NOT ABATED.

The coal fire in the large pile of government coal, corner Alakea and Allen streets, is growing steadily worse. The fire department is working in the dark and find it impossible to bring the fire under control. There is a large force of men and coal carts at work transferring the coal on the front of the pile to the government sheds. They will work into the coal pile until the fire is located thus giving the fire department an opportunity of doing more efficient work.

Chicago Men March for Sound Money

Chicago, Oct. 27.—Elephants, red carnations, an overflowing dinner pail, a Democratic monkey and 3000 melodious musicians marked the long course of the commercial, industrial and sound money parade of the Chicago Republicans today. From 10 a. m. until 4 p. m. thousands upon thousands of handsomely uniformed marchers, carrying all the Republican emblems of the campaign just closing, passed from Michigan boulevard and Randolph street to Jackson boulevard and Market street.

They exceeded in numbers the great Dewey parade of New York one year ago, when 3,000,000 people patiently waited six hours for 35,000 men to pass. In costuming, alignment, celerity and music they surpassed anything of the kind ever attempted in Chicago before. Colonel Young, the chief marshal, had his men marching at 10 o'clock sharp. It was six hours afterward to the music of the bands.

ute when the last man passed the Masonic Temple.

"This beats the devil," said one of the jocosely reviewers with Senator Hanna's party at the Grand Pacific as the long and seemingly never-ending line of men swept by.

"Of course," said the Senator, "that's what it's for."

GILLIGS GET DIVORCE

New York, Oct. 28.—The referee in the suit of Mrs. Harry Gillig for a divorce, has decided in her favor, and all that is necessary to free her from the wealthy yachtman and clubman is the signature of a judge. During the past summer, while staying at Larchmont Villa, Mrs. Gillig finally made up her mind to break off forever with Gillig. So she retained lawyers to bring the suit, enjoining them to preserve the strictest secrecy. This was so successfully done that even the appointment of a referee to take testimony was suppressed. The referee was a member of a well known firm of down-town lawyers. In their offices the hearings were held in secret. Last week the case was concluded, Gillig making no defense. In all probability the referee will submit his report tomorrow.

It is not known whether the fair divorcee will assume her maiden name or not. She was Amy Crocker of San Francisco and Sacramento.

Gillig is as much at home in the clubs of San Francisco as of New York. As a clubman, bon vivant, musician, yachtman and amateur prestidigitator for twenty years Gillig has been a social favorite. He is wealthy, fortunate investments in real estate and fruit lands in Southern California, before the boom having given him a fine income. He is now in Paris.

Mrs. Gillig flatly refuses to discuss her case, neither confirming nor denying the report.

SOME POLITICAL NOTES.

When Health Agent Reynolds returned from Molokai on his last trip to the leper settlement, he reported that Wilcox's chances on the island were very good. Since that time, both Prince David and H. P. Baldwin have paid a visit to the settlement and the news comes out that Prince David will receive a big vote.

The Wilder Steamship Co. people are looking for both the Kilauea Hou and Kaula from Hawaii. Both steamers are now overdue and should be here at any moment. The Naeau is also a week overdue on account of rough weather and should also be in at any moment.

Calculating on 400 votes for Molokai, 350 for Wailuku and 27 for Lanai, Sara Parker still stands a good chance of pulling out ahead in that direction and Kepoikai may also be one of the senators.

The secret of the big vote for Wilcox on Maui is said by some people to lie in the fact that Bob and all his brothers were born on that island. Two of the latter are there now and good work for the Garibaldian was done by them. It will be remembered that Wilcox was sent to the Legislature from Wailuku in 1880.

Post mortems of the election have been the order of the last two days on every street corner in town.

The Orpheum.

The Orpheum last night had a fair audience. The performance was put through in perfect shape. Tonight the new talent Harry Conlon, Jas. Ryder and Anita Walton take part. Conlon and Ryder are acrobatic comedians of the funniest type, having played in the leading vaudeville houses in the States. Miss Walton is a clog dancer of exceptional skill and will show some new steps while doing the light fantastic. Her favorite song and one that will become popular is "Because he made them Goo-Goo Eyes." Edward B. Adams has new songs for this evening and Robert Denning will be as comical as ever.

News From Kauai Tomorrow.

The complete election returns for the island of Kauai should be here tomorrow morning in the steamer James Makee which sailed for Kapaa yesterday afternoon. The Makee took a load of freight that could be discharged this afternoon and, as there is no sugar to be taken on and the weather is good, she should be able to start home at about 5 o'clock this afternoon.

Child Run Over.

It was reported at the police station this morning that a white hack driver ran over a six-year-old child on Emma street, near the Chinese chapel, on election day. Dr. Galbraith was called and the injuries of the child were attended to. Rev. V. H. Kiteat gave the police the information and now the driver is being hunted up.

Men's dress shirts, open front or back, the largest and most complete assortment in town at \$1.00 apiece. L. B. Kerr & Co., Queen street.

The latest styles in shirts and ties are to be found at Iwakami's, Hotel street. Tel. 3361 White.

THREE ROBBERIES ON NUUANU STREET

Two Saloons Entered and Plate Glass Window Smashed.

ROBBERS NOT YET FOUND BY POLICE

On Hing Loses Watches and Chains Amounting to About \$130—Saloon Loses Between \$10 and \$12.

There is evidently a very bold gang of robbers at work in the city just now, as can well be seen by the work done in one of the principal streets of the city last night or early this morning.

The Hoffman saloon at the corner of Nuuanu and Hotel streets was entered and between \$10 and \$12 taken from the till. Entrance was effected through one of the windows in the alley that leads from Nuuanu street. A ladder standing near by had been taken by the robbers and placed against the saloon in order to make climbing to the window an easy matter.

The amount mentioned above is all that has been found missing but it is just possible that other things of value have been taken. There seems to be no doubt whatever on the part of the police that there was more than one man at work for it would hardly be reasonable to suppose that a man would enter a saloon in such a public place without having someone to warn him in case of danger.

The second place robbed was the store of On Hing, 1043 Nuuanu street, just below the Hoffman saloon. The robbers did not take the trouble to enter this place but simply smashed the window with some heavy instrument and, reaching in took a lot of watches and ladies' gold chains that were placed on show. The manager of the store places the value of the articles taken at about \$130. Besides this, there is the loss of the large plate glass window that is so badly smashed as to require another being put in its place.

The robbers next entered the Royal saloon at the corner of Merchant and Nuuanu streets but fortunately, all the money had been taken out of the till so nothing was secured.

There is something very peculiar about this series of robberies as Nuuanu street in the locality of the places robbed is never without a police officer.

MILLIONS IN GOLD.

Seattle, Oct. 28.—A total of \$20,165,687.54 worth of gold dust and bullion has been received in the Seattle United States Assay office.

The aggregation of this total showing the districts the gold comes from, is as follows:

Alaska—Cape Nome, \$2,710,427.01; other Alaskan points, \$162,893.31. Total Alaska, \$3,173,320.32.

British Columbia (Atlin) \$493,116.27; Yukon district (Klondike) \$16,371,488.15; Washington, Oregon, Idaho and foreign gold coins, \$125,862.80.

Since October 21st an additional \$150,000 has been received from Nome and \$50,000 from other points.

Suit Against Palawai.

E. O. Hall & Son have brought suit against the Palawai Valley & Upland Development Association for the sum of \$915.00 which the plaintiff complains has been due them for over a year, this being the amount of the bill for plantation implements sent to Lanai. The first three names on the list of defendants are H. A. Isenberg, J. H. Schnack and W. H. Pain.

Alberts' Big Load of Fine Machinery

The bark Albert, Captain Griffiths, made a remarkable run from San Francisco, considering that she was six inches deeper in the water than ever before and had a lot of water in her hold. As it was she made the good time of 11½ days. Under usual circumstances the voyage would have been made in nine days.

The Albert has been lying in the stream for two days but this morning pulled into Herewer's wharf to discharge her cargo. She carries one of the most valuable cargoes of machinery yet brought to this port. To begin with, she has twelve boilers for Lahaina plantation on her deck. There are five pieces of machinery for Oahu plantation weighing over fifty tons, besides one piece weighing 18 tons, two

pieces weighing 14 tons each and two weighing 10 tons each. This is pumping machinery.

The Albert has also ninety car wheels and axles to the Oahu railway and ten tons of machinery for the new mill at the Honolulu plantation; 130 tons of fertilizer for the Hawaiian Fertilizer Co. and last but not least 400 kegs of beer for thirsty Democratic politicians after their signal defeat.

Capt. Griffiths has a protest to make concerning the scarcity of wharf room which compels vessels to moor in the stream for several days before being accommodated. He says that wharfage rent is double that of San Francisco and has not been reduced in many years although freight rates have been reduced one-half.

McCall Retires.

London, Oct. 27.—The retirement of Norman McCall, M. A., January 1st, from the editorship of the Athenaeum marks the completion of the longest editorship on record in England. For thirty-one years he has controlled the journal, beating Deane's service on the Times, and he has probably had more to do with the formation of the higher literary standards than any man in England. He was a close friend of Charles Dickens, Carlyle, Tennyson, Browning, Ruskin and Darwin, and in later years of Swinburne, Henley, Kipling and Patmore, and, to quote the Outlook, "he knows perhaps more than any man living of books and their authors."

WAITING FOR ELECTION

WHAT COL. SOPER SAYS OF MAINLAND BUSINESS

Conversations During His Travels Point to McKinley—Old Democrats Can't Stand Bryanism and Boss Croker.

Col. Soper returned in the Alameda from San Francisco yesterday. While he was in the States, the colonel had an opportunity of feeling the pulse of the people with regard to the political outlook. A Bulletin reporter who called at the office this forenoon was given the following interview:

"I have talked with a great many people in the States and I have found that nine out of ten of the substantial business men are in favor of McKinley. This is not all. They were sure that he would be elected.

"I ran up against a great many commercial men who had come into personal contact with the laborers and farmers and they reported that these two classes would be almost unanimous for the reelection of McKinley on account of the prosperity he has already given them.

"I think that the election of McKinley is of prime importance to this country in order that favorable action may be taken by Congress in regard to the Pacific cable.

"I talked to a man from Spokane, Wash., a former attorney general of the State and a man who was one of the most prominent Democrats in Missouri, as his fathers were before him. He himself and the members of his family had been in the Confederate service. This man told me that he couldn't stand the thing any longer and that it was not a fight of Democracy against Republicanism but a fight of Bryanism against Republicanism. He not only would fight against Bryanism but would take the stump for McKinley and sound money.

"You ask me about business. What I saw was this—business is simply waiting for the outcome and hoping for the success of McKinley. Business men are at sea as to what they might expect in case of Democratic victory.

"You of course know of Bryan's speech at the Cooper Institute during which he is reported to have said: 'Great is Tammany and Croker is his prophet.' You can well see from this that, if Bryan is elected, Croker will be the main factor in the direction of the administration of the government. He has brains. There is no doubt of that fact, but we all know what he is.

"I believed Bryan to be an honest man but he is certainly placing himself in a humiliating position for any man who poses before the people as an apostle of the laboring man."

Japan Accepts.

London, Oct. 31.—The Japanese Minister here, Kato Takasaki, informed a representative of the Associated Press today that he delivered a note to Lord Salisbury in which Japan unconditionally assents to the Anglo-German agreement on China.

Judge Estee had nothing before him this morning and adjourned the U. S. District Court until Monday.

The gasoline schooner Eclipse sails tomorrow for Lahaina, Kihui, Makina and Kona.

JURORS ARE FINED FOR NON-APPEARANCE

B. Bergersen and J. W. Bergstrom Are the Victims.

JURY OBTAINED FOR MURDER TRIAL

Frank Foster Puts up Fight for His Own Interests in the Kamalo Sugar Company Controversy.

Striking examples have been made by Judge Humphreys of citizens failing to respond to summons for jury duty. B. Bergersen, for whom a bench warrant was issued as stated in yesterday's paper, belonged to the regular jury panel. When brought into court he was fined \$25 and ordered to be committed to jail until the fine was paid.

The panel was exhausted for the trial of Chas. Downing, charged with murder in the second degree, and Judge Humphreys issued an order to the High Sheriff for the summoning of twenty-five talesmen to appear this morning. J. W. Bergstrom was summoned for one, but there was no answer to his name in court. A warrant was issued for his arrest. Within a few minutes, however, he appeared of himself and gave the excuse that the time had passed from his mind. The Judge fined him \$100, with committal until paid.

At about 10:30 the following twelve men, being found satisfactory to both sides, were sworn to try the case: John Jones, Charles B. Lemon, Frederick Goudie, Samuel P. Woods, Carl C. Rhodes, Nicholas Braham, Fitzhugh L. Dorch, George Macy, John Mitchell, Clarence M. White, Harlan T. Waty and James Steiner.

George Houghtalling, unlicensed liquor seller, was discharged on a nolle prosequi. It appeared that his place of business had been abandoned.

Charles B. Wilson by his attorney, Abraham Lewis Jr., has filed a motion against Liliuokalani to declare a trust and compel a conveyance of real estate.

THE KAMALO SUIT.

Frank H. Foster is putting up a fight against being put in the same box with Frank Hustace and J. J. Egan, his co-defendants in the Kamalo Sugar Company controversy. He has filed a motion to have evidence heard in his own behalf against the amended bill of H. R. Hitchcock and others.

In an affidavit backing his notice Foster says that at the time of the agreement with Hustace and Egan he was the owner of a valuable option for the purchase of lands, leases and other property which, irrespective of the agreement, was worth all that he received out of the company. He offers to prove that, in the open market, as could have sold his option alone, without taking into consideration any consideration as a promoter, for all that he bargained for and actually received from the company or from Hustace and Egan.

His services as a promoter he claims were very valuable, he having spent a large amount of time and labor as such for which he received nothing.

Further, he contends that no issue was raised in the proceedings as to his title to the company's stock or putting the stock in jeopardy. He demands his say in court to protect himself, if the court forfeit the stock, he claims the right still to proceed against the company for recovery of the value of his option and services.

Mr. Foster, moreover, asserts that the complainants knew when they took stock that promotion fees were to be charged. Also he claims that the third parties who have bought a large amount of the stock should be joined as parties to the case before final decision.

A Portuguese boy about four years of age was knocked down by a carriage driven by a white woman at the corner of King and Fort streets this forenoon. The child was first struck by the horse. Fortunately, the little fellow was rolled away from the wheels under the body of the carriage so that no damage beyond a few bruises were sustained.

Kerr & Co. have values in men's and boy's clothing that cannot be duplicated. They are making a specialty just now of boy's tweed pants at 25 cents per pair.

A silver watch fob of Egyptian coins has been lost. See Lost column on page 8.

The Evening Bulletin, 75 cents per month.

FEDERAL BUILDING FOR HONOLULU

Secretary of Treasury Will Present Matter to Congress.

GOVERNOR DOLE RECEIVES A LETTER

Hawaiian Tramways Company up Against the Government on Account of Sewer Manhole in Alakea Street.

Honolulu has a fair promise of being architecturally ornamented with a Federal Building. That is, a structure for housing the various departmental offices of the United States for the Territory of Hawaii. The customs, internal revenue, postal and judiciary departments all have large business here. Whether the post office and United States courts will have accommodation in the building now in contemplation, or be reserved for special structures of their own later, remains to be seen.

Governor Dole read to his councilors this morning a letter from E. A. Hitchcock, Secretary of the Interior, in regard to procuring land for a Federal building. The letter stated that the matter had been referred to the Secretary of the Treasury, who in reply had advised the Interior Department that, at the proper time, he would bring the subject to the attention of Congress.

J. A. McCandless, Superintendent of Public Works, reported a letter received from W. H. Pain, manager Hawaiian Tramways Co., claiming that the Government should at its own expense, remove the company's track from over a certain sewer manhole in Alakea street. Mr. McCandless had replied, requesting Mr. Pain in effect to make way, without further ceremony, for that manhole.

Moves for Judgment.

The Supreme Court having denied the libelee's right of appeal to the Ninth Federal Circuit Court of Appeals, Paul Neumann moves for judgment against Wilder's Steamship Company according to the decree in the Claudine-Carson collision case.

There was considerable excitement this morning on the water front over shipping a crew for the Star of Russia between union and non-union men and the "crimps." At one time it looked as though there was likely to be trouble. The ship finally succeeded in getting a non-union crew.

John E. Bush, one of the defeated Democratic candidates, has withdrawn his resignation of the office of Hawaiian Interpreter in the Circuit Court, with the consent of Judge Humphreys whose courtesy and kindness in the matter Mr. Bush cordially appreciates.

There was a fight on the transport Port Stephens this morning between the wharf watchman and the Chinese boatswain of the vessel. Both parties were injured. It seems that Capt. Gray of the Port Stephens applied to the High Sheriff for police protection fearing that his Chinese crew might desert ship while in port, the police force
